

UNITED SOVEREIGN AMERICANS

...for Freedom!

★ Who We Are

United Sovereign Americans is a volunteer organization committed to ensuring fidelity to the law as it relates to elections and voting. We are dedicated to protecting the individual liberty of all American citizens by assuring transparent, unwaveringly lawful, and trustworthy elections. The constitutional right of citizens to choose our representatives guarantees that our government upholds our will and serves with our consent.

Our life, liberty, and pursuit of happiness are secured by the law. Laws regarding elections that have been enacted include the National Voter Registration Act (NVRA) of 1993, the Help America Vote Act (HAVA) of 2002, and the Federal Information Security Management Act (FISMA) of 2002.

★ Why We Formed

The New York Citizens Audit (NYCA) found millions of suspicious voter registrations and other irregularities in the state of New York. When they discovered the extent of potential crimes, the founder of NYCA, Marly Hornik, was inspired to initiate similar audits in other states and co-founded United Sovereign Americans with Harry Haury.

★ Why It Matters

To restore the validity of our elections by the November 2024 election, we must act now with a crystal-clear strategy across the nation. The courts, bureaucrats, and politicians increasingly view themselves as election referees, overseeing close contests, and ultimately making the final call. This is a gross violation of their duty and reduces suffrage to the arbitrary will of bureaucrats.

The extensive planning, research, and analysis that is behind this effort, combined with laser-focused litigation, will force election officials and their superiors to obey the clear law they appear to have broadly and materially violated.

We can save our country by restoring validity, transparency, and confidence in our elections. We will force legally valid elections, protecting the rights of all eligible voting Americans.

★ USA Founders

Marly Hornik, USA CEO, worked as volunteer Director of New York Citizens Audit since 2021, analyzing the conduct of elections in New York State. She assembled an outstanding team of 2,000 volunteers, including PhDs, mathematicians, programmers, election experts, and simply devoted Americans. Their work has been peer reviewed and published. She then started United Sovereign Americans (USA) whose teams have uncovered massive irregularities in the voter rolls, discrepancies in the vote count, suspected illegal editing of vote records, and indications of an apparent algorithmic manipulation of many state voter rolls in the US.

Harry Haury, USA Chairman, has been involved with elections for decades, including consulting on the design and authoring of the Help America Vote Act (HAVA) of 2002. He has worked extensively with the US military, the Department of Homeland Security, and the intelligence community. He is a recognized subject-matter expert on cybersecurity forensics, attack, and defense. He was directly involved elections systems analysis after the 2020 election where he was the first to advocate focusing on the obvious and massive election misconduct. He submitted expert testimony in several election challenges in 2020, including testimony filed before the Supreme Court.
