Subject: FOIA request - Tim Vetter - Jan. Feb. 2023

Hi Sarah,

I would like to request, via FOIA, a complete qualified voter file dated January 1st, 2023 and February 1st, 2023. At a minimum, this is the same typical data provided in the past via FOIA.

If possible to the standard data issued by your office, I am requesting the following items identified below. If any items can not be provided, please explain in detail why the SOS can not fulfil my FOIA request for this data. Thank you!

1. **A complete list of voters:** Registration status should include but not be limited to all registrants with active, challenged, verify, cancelled and rejected status. Therefore, I would anticipate **every voter** in the November, 2022 election (4,500,400 voters) would be listed in BOTH Jan and Feb QVFs for voting history. I anticipate many registrations will be removed due to death, moving out of state, or request for removal. **However, I want a complete voting history record.** Removed/deleted voting history is not desired. I want a complete voting history list with accurate voting locations of past elections.
2. **Locations:** Every voter should have the exact County, Jurisdiction, and Precinct not modified in their voting history. In the past we received only county and jurisdiction. Also, in the past the location is changed from original voting location to reflect ALL vote history at the current registration location. This past voter history location modification is **NOT** desired. I want the same vote history as maintained in the QVF as provided by the local clerks.
3. **VoterIDs:** Include the typical "Voter_ Identification_Number" typical from your group **AND** "voterID" which is provided from the local jurisdictions. See the following screenshot showing two voterIDs per registration.

VOTERID	VOTERID_(Q VF)	WARD PRECI NC	LASTNAME	FIRSTNAME	MIDDLENAM E	SUFFI X

VoterID from local clerk

VoterID still used from Lansing

In addition to the data normally provided with a qualified voter file request, please also include in this file all records in the qualified voter file for all voter statuses. The list of voter status should include but not be limited to all registrants with active, challenged, verify, cancelled and rejected status. If additional voter status' exist it should include those as well. Please include in this FOIA the complete voter record file and the complete voter history file. Additionally, please also include the AV file from the August 2022 primary.

Please note the data for this FOIA response should be on a USB drive and mailed to:

Hi Tim,

We can upload to a secure FTP if you provide me with the information below. I also realized never sent you the password for the flashdrive: Electi@n2022

The image shows a screenshot of an FTP client configuration window. The window has four tabs: 'General', 'Advanced', 'Transfer Settings', and 'Charset'. The 'General' tab is selected. The configuration fields are as follows:

- Protocol: FTP - File Transfer Protocol (dropdown menu)
- Host: [Empty text box] Port: [Empty text box]
- Encryption: Use explicit FTP over TLS if available (dropdown menu)
- Logon Type: Normal (dropdown menu)
- User: [Empty text box]
- Password: [Empty text box]

As for your questions:

1. The file will contain all voters that we have record of voting in the Nov 2022 election. Local clerks are responsible for uploading voting history. If they haven't uploaded their history we will not have that data.
2. The file will contain voting location
3. This will have to be a separate request. I have attached an invoice for the estimated cost

Hi Sarah,

I have not received the thumb drive yet which was, I assume, in the mail on May 9th. Can you upload this FOIA data to a secure FTP site if I do not receive it by tomorrow? Please confirm. Also, I did not receive any confirmations to my questions, shown below, sent to you on May 8th.

Thank you Sarah,

In addition to sending the data tomorrow via flash drive, can you please confirm the following:

- Your data provided will contain the complete list of all 4,500,400 November 2022 voting records with a minimum of the column headers listed on my March 13th email?
- The voting history will contain County, Jurisdiction, and Precinct of the **voting location**. Not the current relocated address if the voter moved.
- If there are any clerks who have “failed to upload voting data” please list these clerks by name and jurisdiction and provide any past email documentation from the SOS attempting to get remaining election data.
- You stated: “We can include the “Voter_Identification_Number” , however we do not have record of “voterID” that is given out by jurisdictions so we will not be able to provide that.” Please provide a response to my email dated April 28th. Why this voterID can not be provided.

Thank you Sarah I welcome your feedback to my FOIA questions.

FREEDOM OF INFORMATION ACT NOTICE

The Michigan Department of State (Department) is in receipt of your recent request for documents dated February 2, 2023 submitted pursuant to the Michigan Freedom of Information Act (FOIA), 1976 PA 442, MCL 15.231 *et seq.* The Department received your request on February 3, 2023. MCL 15.235(1). The Department has begun to process the request under FOIA and issues this preliminary notice in response to your request, a copy of which is attached and incorporated herein.

Your FOIA request for *List of November 2022 Voters* is denied in part and granted in part as to existing, nonexempt public records that are determined to be responsive to your request. Your request is denied to the extent that it seeks “[r]ecords or information specially described and exempted from disclosure by statute.” MCL 15.243(1)(d). Under Michigan Election Law, the following is exempt from disclosure:

- (a) The record that a person declined to register to vote.
- (b) The office that received a registered voter's application.
- (c) A registered voter's driver's license or state personal identification card number.
- (d) The month and day of birth of a registered voter.
- (e) The telephone number provided by a registered voter.

(f) The digitized signature of an elector that is captured or reproduced and transmitted to the Qualified Voter File.

(g) The last four digits of a registered voter's social security number contained in a registration record.

MCL 168.509gg(1) – (2). The Department is required to separate exempt from nonexempt material. MCL 15.244(1). Where a responsive record contains both exempt and nonexempt material, the Department will redact such material.

In order to process your request, please pay the total processing fee of \$55.10. FOIA authorizes the Department to charge for mailing costs, copying, searching, reviewing, deleting and separating exempt from nonexempt information (MCL 15.234). The failure to charge a fee for the search, examination, review, and the deletion and separation of exempt from nonexempt information would result in unreasonably high costs to the Department in this particular instance because, your request requires Department employee(s) to be diverted from their regularly assigned duties in order to process your request.

Checks or money orders should be made payable to the STATE OF MICHIGAN and mailed to:

Michigan Bureau of Elections
PO Box 20126
Lansing, MI 48901-0726

As set forth under section 4(14) of the FOIA, MCL 15.234(14), the Department must receive the required deposit within 45 days after your receipt of this notice, which is June 15, 2023, otherwise the FOIA request will be considered abandoned and the Department will not be required to fulfill the request.

Regarding the partial denial of your request, under FOIA (MCL 15.240) you may do one of the following:

1. Appeal this decision in writing to the Secretary of State's designated appeals officer at:

Secretary of State Jocelyn Benson
Attn: Michael J. Brady
Legal Services Administration
Michigan Department of State
P.O. Box 30204
Lansing, Michigan 48918

The writing must specifically state the word "appeal" and must identify the reason or reasons you believe the denial should be reversed. The Department must respond to your appeal within 10 business days of its receipt. Under unusual circumstances, the time for a response may be extended by 10 business days.

2. File an action in the appropriate court within 180 days after the date of the final determination to deny the request. If you prevail in such an action, the court is to award reasonable attorney fees, costs and disbursement, and possible damages.

The Department's FOIA Procedures and Guidelines can be accessed at www.michigan.gov/sos, under the "FOIA" tab at the bottom of the page.

Sincerely,

Sarah McMillan

Hi Sarah,

I am not looking for the "entire state voter files from Jan 1, 2023 and Feb 1, 2023" which removed November 2022 general election voters. FYI-I already have these standard monthly QVF datasets that you issue. This is not what I asked for in my original FOIA dated February 2nd and clarification/follow-up to that same FOIA dated March 13th.

- As my original FOIA clearly stated, Yes, "just who voted in the Nov 2022 election". Header columns listed in the March 13th email intended for clarification/follow-up.
- If you **can not** provide the "voterID" that is given out by local jurisdictions, then per my original FOIA request dated Feb, 2nd, please do the following:
 - "If any items can not be provided, please explain in detail why the SOS can not fulfill my FOIA request for this data."
 - **Therefore, I want a clear explanation why the local jurisdictions can not provide the same "Voter_ Identification_ Number" you give from the SOS. Both of these voterID numbers are in the single QVF system maintained by the SOS.** The local jurisdictions has provided this same "Voter_ Identification_ Number" in the past using the QVF system managed by the SOS. Why was this statewide change made by the SOS to the QVF system? Can this clear change by the SOS be reversed/corrected so a common voterID number can be used for matching voter registration data?

Take Care,
Tim

Hi Tim,

Sorry for delay. We have a couple things that we need you to clarify.

We can get you the entire state voter files from Jan 1, 2023 and Feb 1, 2023. Did you also want the complete voting history files with these? These files will not include any voters that have been cancelled, moved out of state, etc.

- Are you looking for a file of just who voted in the Nov 2022 election or are you looking for all past voting history for every voter?
- We can include the "Voter_Identification_Number" , however we do not have record of "voterID" that is given out by jurisdictions so we will not be able to provide that

Hi Sarah, I have not received any feedback from my February 2nd FOIA request. Can you please reply with any details why my FOIA request is delayed so long. Asking for a simple and accurate November 2022 vote history from our QVF should be a simple 15 minute export task. The December 2022 QVF was missing 17,974 voters. I would anticipate all 4,500,400 voters by now are all in the QVF with accurate voting history locations.

Please reply ASAP.

Hi Sarah,

I no longer need the standard January or February statewide lists you have provided to me in the past.

Are there any questions about my additional 3 FOIA requests listed below? I have not received any feedback from you since February 9th. Keep in mind my 3 FOIA requests can be fulfilled in one single dataset. Simply put, all I need is an accurate voting history file for our November 8th 2020 election with the following 7 headers and with the 4,500,400 records that are documented by the SOS as the official vote total by the SOS:

1. VoterID_Local – (All statewide local clerks provide this voterID number for each voter when we request a QVF)
2. voter_identification_number
3. County_Name
4. Jurisdiction_Name
5. Precinct
6. Election_Date (All dates should be Nov. 8, 2023)
7. is_absentee_voter

Items 3, 4, & 5 above should have the actual voting location NOT changed to the existing voter's registration location. Also, as documented in Patrick Colbeck's attached letter from Adam Fracassi, if there are any clerks who have "failed to upload voting data" please list these clerks by name and jurisdiction and provide any past email documentation from the SOS attempting to get remaining election data.

I look forward to feedback ASAP

Legal Standard of Allowable Error for Federal Elections^ **0.0008%**

Michigan's 2022 General Election Validity Reconciliation

The measured error rate of the electoral process in Michigan, from registration through certification, makes it impossible to legally certify any election in Michigan. Whether due to ignorance, arrogance or malice, the error rate simply outstrips the margins of victory. Countless unique investigations were required by law before certification could proceed. Election officials may never be able to prove that those granted the privilege of writing laws for the nation legitimately represented the will of eligible citizen voters.

The registration and voting error rates reported here represent minimums. We have ample reason for concern, after two years of careful study, that the actual error rates are higher.

2022 Federal Elections in which the error rate exceeded the margin of victory:

All US Senate, MI Congressional Districts

Every race in MI's 2022 GE was irretrievably impacted by an error rate 10,000 times the legal standard for system accuracy.
