★ Why USA?

United Sovereign Americans (USA) has studied federal elections in 21 states and is the **FIRST** organization to **MEASURE** the current election misconduct *as defined in criminal law*. USA audits of official election records show as much as 30% of votes counted are improper (CA 2022 midterm).

1 Elections are not accurately measuring the intent of eligible voters submitting legal votes. The voters, votes, and counts are a constitutional and administrative disaster.

2 Election "integrity" solutions such as cleaning the voter rolls, eliminating machines, or requiring voter ID only address a small part of the problems that USA has exposed.

3 Political solutions last as long as the power of a politician or popular outcry. They cannot secure the enduring freedom America promises. Blue, Red, and Purple states have all been notified. They don't know what to do, or don't want to do anything.

What is the Risk?

USA's analysis shows the voting system is in a *Total Loss of Control* breach, a national cyber-infrastructure designation defined by the Department of Homeland Security. There **is** a marauder in our system whose intentions are currently unknown, and there is likely **more than one**. If cyber-infrastructure is compromised, how can Americans trust their votes represent their voice?

How do we secure liberty and prosperity for future generations?

USA Has the Solution: Real voters. Real votes. Real counts. Real proof. Only by securing every step of the election process, can we ensure that we have real representation and the Real America for which the citizens voted.

★ USA is uniquely qualified

As co-founders of USA, Marly Hornik, CEO, and Harry Haury, Chairman, lead the most impactful election validity effort in the nation, providing a fact-based, non-partisan solution to America's election crisis.

Marly Hornik also founded New York Citizens Audit, which laid the foundation for election validity efforts now being extended nationally through USA. Inspiring the participation of more than 10,000 volunteers across both organizations, Ms. Hornik has led their work auditing elections in 21 states, advocating for legally valid elections to over 700 local representative bodies across America, and filing federal lawsuits in nine states demanding that the voters, votes, and counts be lawful and accurate. Find her op-eds in *Daily Caller*, *Blaze*, *TownHall*, and *American Thinker*.

Harry Haury, one of the top cyber and election experts in America, has spent decades with government securing some of our most critical systems, including White House communications, Public Alerts and Warnings, and our most sensitive military communications networks. Mr. Haury helped write our primary national election law, the Help America Vote Act. Harry has also spent time over the past three decades developing workflow automation software and security software while working with such organizations as the NSA, CIA, DOD, DHS, DOJ, SOCOM, as well as, American Express, Visa, Mastercard and 16 of the largest 25 US banks across over 100 countries.

With featured appearances on Steve Bannon's *The War Room*, Jack Posobiec's *Human Events*, and RAV's *America Shines*, Ms. Hornik and Mr. Haury are sought-after speakers and strategists committed to securing elections through forensic audits, legal accountability, and legislative action.

Real voters ★ Real votes ★ Real counts ★ Real proof
