

USA Teams to Present Election Audit Data to State Legislators Nationwide

CONTACT: Marly Hornik, CEO, info@Unite4Freedom.com or (314) 390-9330

DATE: February 3, 2025

ST. LOUIS, MO – United Sovereign Americans (USA) will be conducting a nationwide Election Validity Advocacy Day on Tuesday, February 25, 2025.

USA has studied federal elections in 21 states and is the **first** organization to **measure** the current election misconduct *as defined in criminal law*. Forensic audits of official, 2022, public election records in seven of those states (CA, IL, NY, MI, PA, OH and GA) uncovered the following:

- **22 million** non-compliant voter registrations
- **7 million** votes cast by these registrations, suspected to be unlawful
- **1.4 million** more votes counted than voters who voted

USA audit teams are uncovering the same egregious violations in the 2024 election data.

The Advocacy Day event will allow USA volunteers to meet with their state legislators to present evidence showing that elections in their state are not accurately measuring the intent of eligible voters submitting legal votes.

USA's study of the 2022 election, using official state records of voter registrations, voter participation history, and extensive voter identity verification, in those seven large states above, revealed that **21.6% of the votes were cast by identities or addresses that could not be verified**.

Moreover, in California alone in 2022, USA analysts discovered **748,536 certified votes had been altered, added, or deleted** over time. If the election was accurate when it was certified, then why were the votes changed? If it was not accurate, then why was it certified?

USA volunteers will also highlight to their state legislators the locales in their states where USA's Resolution for a Legally Valid Election has been presented. It is worth noting that over three-thousand USA volunteers have participated in approximately 600 Resolution presentations nationwide.

In addition, USA volunteers will inform state legislators of new national legislation USA is drafting to mandate total transparency, prove election results, and prevent false representation. This includes real time end-to-end audits and monitoring, as well as compliance. More information on that initiative will be forthcoming in the future.

These face-to-face discussions will enable USA volunteers to engage directly with their state representatives, with the hope of fostering greater understanding and collaboration on solving these important election validity issues.
