DATE: February 8, 2025, Free Tina Peters Day

ST. LOUIS, MO – United Sovereign Americans, along with election validity organizations across the country, call for the immediate release and pardoning of former Mesa County Clerk Tina Peters. This brave woman was indicted and imprisoned for simply doing her job.

Focusing on the oath she swore to faithfully serve the citizens of Colorado and the United States, she took steps to secure Mesa County voter registration information from destruction, which she was required by law to maintain.

Instead of being recognized for her vigilance, she was targeted, convicted, and sentenced to nine years in prison.

Note that USA has studied federal elections in 21 states, including Colorado, and is the FIRST organization to MEASURE the current election misconduct *as defined in criminal law*.

USA's Forensic Findings in Colorado

USA's forensic audits of Colorado's official public records for the 2022 midterm election uncovered the following:

- More than **one million** voter registrations were recorded as having voted BEFORE their voter registration date.
- **58,324** of those registrants had ballots counted in the 2022 general election.
- In total, USA discovered **1,431,998** materially deficient registrations.
- There were **100,693** votes counted from those deficient registrations.
- In addition, **34,912** more votes were counted than the number of voters recorded as voting.

USA's Actions in Colorado

USA notified Colorado Secretary of State Jenna Griswold and Colorado Attorney General Phil Weiser of these findings, and prior to the 2024 election filed a federal mandamus lawsuit against them. Presenting USA's forensic evidence, the lawsuit asserts that Colorado's federal elections do not conform with the law as Congress has set forth.

These Colorado officials have allowed and continue to allow violations of federal election laws, Colorado election laws, the United States Constitution, and federal civil rights laws pertaining to voters' rights.

USA believes that these findings align with Peters' concerns about the validity of Colorado's elections. Her indictment and continued imprisonment is a stain on our system of American Liberty. We sincerely hope that immediate measures will be taken to rectify this wrongdoing.
