

Securing the 2026 Elections

★ THE USA SOLUTION ★

USA has studied federal elections in 21 states and is the **FIRST** organization to **MEASURE** the current election misconduct *as defined in criminal law*. Our audits show as much as 30.5% of the votes counted are improper (California’s 2022 midterm).

1

PROBLEM: Elections are not accurately measuring the intent of eligible voters submitting legal votes. State and federal officials ignoring federal law has allowed tens of millions of material errors to cloud the legality of millions of votes.

SOLUTION: USA filed federal lawsuits in nine states asking the courts to force officials to obey existing laws.

2

PROBLEM: Election “integrity” solutions such as cleaning the voter rolls, eliminating machines, or requiring voter ID only address a small part of the election validity problems that USA has exposed.

SOLUTION: USA has drafted legislative measures to secure critical workflow gaps.

3

PROBLEM: Political solutions last as long as the power of a politician or popular outcry. They cannot secure the enduring freedom America promises. Blue, Red, and Purple states have all been notified and have not acted to fix the disaster.

SOLUTION: USA is preparing to file litigation to hold non-compliant officials personally responsible for the ongoing deprivation of constitutional rights acting “Under Color of Law.”

RISK:

USA’s analysis shows the voting system is in a Total Loss of Control breach, a national cyber-infrastructure designation defined by the Department of Homeland Security. There **is** a marauder in our system whose intentions are currently unknown, and there is likely **more than one**.

How do we secure liberty and prosperity for future generations?

Real voters ★ Real votes ★ Real counts ★ Real proof

USA has the solution and the credentials to secure real representation and Real America through trustworthy elections.
