

Nassau County, NY 2024 Phantom Voter Report

This study measures suspected fraudulent registration and voting in the Nassau County 2024 election. The study was conducted using the Unite4Freedom copywritten process for performing comprehensive identity verification using commercially available fraud-prevention tools.

A randomized sample of 609 voter records, taken from the entire population of 722,586 voters in the 2024 election, was generated based on a 90% confidence interval, a precision of 0.02 and a predicted prevalence of $P = 0.1$.

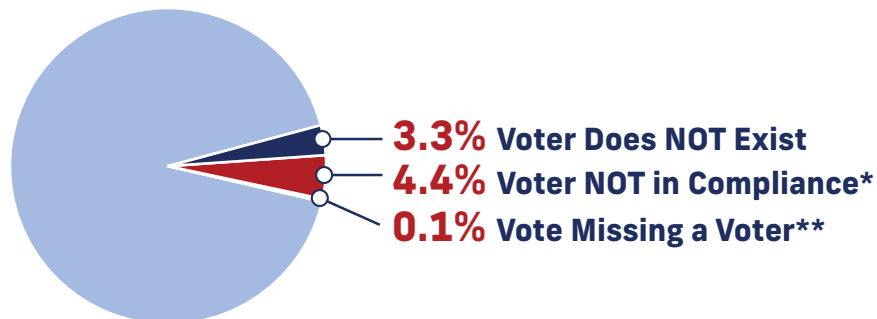

The analysis of the data checks first to see if the voter "exists" in any of the identity verification databases used, then the address is validated, and then the record is subjected to other compliance checks.

When extrapolating the sample results to the population of vote records in the Nassau County 2024 election, the following was found:

Total Votes Certified	Voter Does NOT Exist	Voter NOT in Compliance*	Vote MISSING a Voter**
722,586	23,769	32,089	527

TOTAL INCONCLUSIVE VOTES: **56,385**
PERCENTAGE OF VOTES THAT WERE INADMISSIBLE: **7.8%**

7.8%
of Voters are
Inadmissible

Credentialed programmers and cybersecurity and election experts conducted the analysis using official state and county records received from their custodians. A private investigative firm assisted, producing law enforcement compliant evidence of suspected illegal voting and election misconduct.

** **Voter Not In Compliance:** Records were found to have deficiencies, including being outside the election window, meaning if they have any documented affiliation with the address provided, it does not match the timing of the election, or the address is unverifiable meaning either the address itself is not valid (meaning there is no such place—no building with the address in question) or there is no record of the person in question ever being associated with the address—in any government database.*

*****Vote Missing a Voter:** The difference between the certified total ballots cast in the county according to NYSBOE Official Tabulated & Certified Results versus the number of votes appearing in official copy of the NYSVoter database provided by NYSBOE via FOIL request on December 10, 2024.*
