

Securing the 2026 Elections

★ THE SOLUTION ★

Unite4Freedom has studied federal elections in over 30 states and is the **FIRST** organization to **MEASURE** the current election misconduct *as defined in criminal law*. Our audits show as much as **34.6% of the votes counted are prohibited by law**. (California’s 2024 General Election).

PROBLEM: Elections are not accurately measuring the intent of eligible voters submitting legal votes. State and federal officials ignoring federal law has allowed tens of millions of votes with legal violations to dilute the voice of voters casting legitimate votes.

SOLUTION: **Unite4Freedom pursues multiple judicial remedies to ensure adherence to the Constitution and federal and state law.**

PROBLEM: Election “integrity” solutions such as cleaning the voter rolls, eliminating machines, or requiring voter ID only address a small part of the election validity problems that Unite4Freedom has exposed.

SOLUTION: **Unite4Freedom has outlined comprehensive measures to secure critical election workflow gaps and is working with government officials to implement them.**

PROBLEM: Political solutions cannot secure the enduring freedom America promises. Blue, Red, and Purple states have all been notified and have not acted to fix the disaster.

SOLUTION: **Unite4Freedom is building a citizen army of peaceful advocates to force officials to investigate the fraud, prosecute the offenders, and secure our votes.**

RISK:

Unite4Freedom’s analysis shows the voting system is in a Total Loss of Control breach, a national cyber-infrastructure designation defined by the Department of Homeland Security. There is a marauder in our system, and there is likely more than one. **This is a national security emergency.**

How do we secure liberty and prosperity for future generations?

Real voters ★ Real votes ★ Real counts ★ Real proof

Unite4Freedom has the solution and the credentials to secure real representation and Real America through trustworthy elections.
