DATE: *March 11, 2026*

BREAKING! Unite4Freedom’s Chairman and Founder, Harry Haury, will join an X Spaces discussion with David and Erin Clements on Thursday March 12, 2026 at 8:00 pm Eastern.

We will discuss the just-concluded Texas 2026 Primary Elections’—both Democrat AND Republican—findings so far, analytical conclusions, and what we can do about it.

Hint: Election theft is already underway in 2026 IN REAL TIME, and valid elections are a high-stakes conversation for all Americans!

After we share our findings, Harry, David and Erin will take YOUR questions. Prepare for the conversation by visiting our website to see the [2024 Texas Vote Tampering Report](#). **Fraud alert—it’s worse now than in 2024!**

Comparisons of data snapshots downloaded from the Texas Secretary of State’s website during early voting indicate instances of ballot “injections” and “deletions” over time.

What’s worse than “injections” and “deletions”? Someone knew we were looking! There are obvious attempts to obfuscate the data by changing the format of the data files multiple times AND removing access to the data multiple times.

It’s harder to analyze for sure. But Unite4Freedom’s data analysts will not be fooled by the digital version of the water leak in Fulton County, Georgia that “halted” counting. Nor will we be dissuaded by the online version of pizza boxes obscuring observation of ballot counting at the TCF Center in Detroit.

Follow and join us at our X account [@Unite4Freedom](#). See you there!
