

Unite4Freedom Applauds President Trump's Executive Order to Secure American Elections

CONTACT: Media@Unite4Freedom.com

DATE: *April 1, 2026*

Several of the measures which Unite4Freedom has been advocating for years, were included in President Trump's Executive Order (EO), "Ensuring Citizenship Verification and Integrity in Federal Elections". These are important steps toward ensuring honest elections and strengthening public confidence in election results.

Unite4Freedom has shared extensive evidence of a systemically broken and unreliable election system. Identified weaknesses in voter registration systems, inconsistent ballot handling standards, and the erosion of basic safeguards have allowed uncontrolled malfeasance. This Executive Order represents a step toward restoring trust by reaffirming a simple but essential principle: only eligible U.S. citizens are legally allowed to vote in U.S. elections.

"Election integrity is not a partisan issue—it is a constitutional obligation designed to protect our rights," said Harry Haury of Unite4Freedom. "President Trump's Executive Order takes meaningful action to close some of the long-standing gaps in election security while reinforcing standards that Americans overwhelmingly support, such as identity verification and secure voting systems."

Restoring Confidence Through Common-Sense Safeguards

Trustworthy elections require complete end to end integrity of the system, provable at every step, with fully auditable records. We must have legally compliant systems that can prove that the voters who voted are legitimate, prove that all votes that were submitted legally were counted, and prove that the counts were accurate.

Unite4Freedom supports the Executive Order's focus on:

- **Citizenship verification for voter registration** through utilization of a State Citizenship List, derived from Social Security Administration (SSA) records, Department of Homeland Security's (DHS) Systematic Alien Verification for Entitlements (SAVE) data, and other relevant Federal databases to verify eligibility and ensure that only eligible American citizens participate in federal elections.
- **Allowing individuals to access their individual records** as well as to update or correct them in advance of elections; and **enabling States to routinely supplement and provide suggested modifications** or amendments to the State Citizenship List.
- **Securing ballots submitted through the USPS**, by establishing uniform standards for mail-in or absentee ballot services with envelope identifiers such as bar codes, to provide a reliable, auditable mechanism to enable confirmation that only eligible US citizens receive and cast ballots, reducing the risk of fraud and protecting the integrity of Federal elections.

- **Prioritizing the investigation and, as appropriate, the prosecution** of State and local officials, contractors, or individuals and public or private entities engaged in, or aiding and abetting, the printing, production, shipment, distribution or issuance of ballots to individuals who are not eligible to vote in a Federal election.
- **Strengthening enforcement of compliance with Federal law**, including withholding Federal funds from noncompliant States and localities, and prosecution of all public or private entities or individuals involved in the administration or production of Federal elections.
- **Preservation of all records and materials—excluding ballots cast—for a 5-year period**, evidencing voter participation in any Federal election (e.g., ballot envelopes, regardless of carrier) to ensure auditability.

These measures do not restrict lawful voters, they ”provide a reliable, auditable mechanism to enforce Federal law without unduly burdening or infringing on the rights of eligible voters.” When election rules are clear, consistently enforced, and grounded in law, confidence in fair elections rises and division falls.

Protecting the Republic, Not Politics

Unite4Freedom emphasizes that election integrity reforms are not about favoring one political outcome over another. They are about preserving the legitimacy of representative government itself.

“The right to vote is sacred, but so is the right of every citizen to know that their vote is not diluted, canceled, or overshadowed by unlawful participation,” the organization stated. “This Executive Order advances both measures of security and accountability—pillars that must exist in a trustworthy election system.”

Unite4Freedom urges state and federal officials to work cooperatively to implement lawful, evidence-based reforms that strengthen election integrity while respecting constitutional boundaries and the rule of law.

Unite For Freedom

Valid elections are guaranteed in the Constitution and are the foundation of our Republic. Join us to Unite For Freedom (Unite4Freedom.com) and help save our country.

★★★

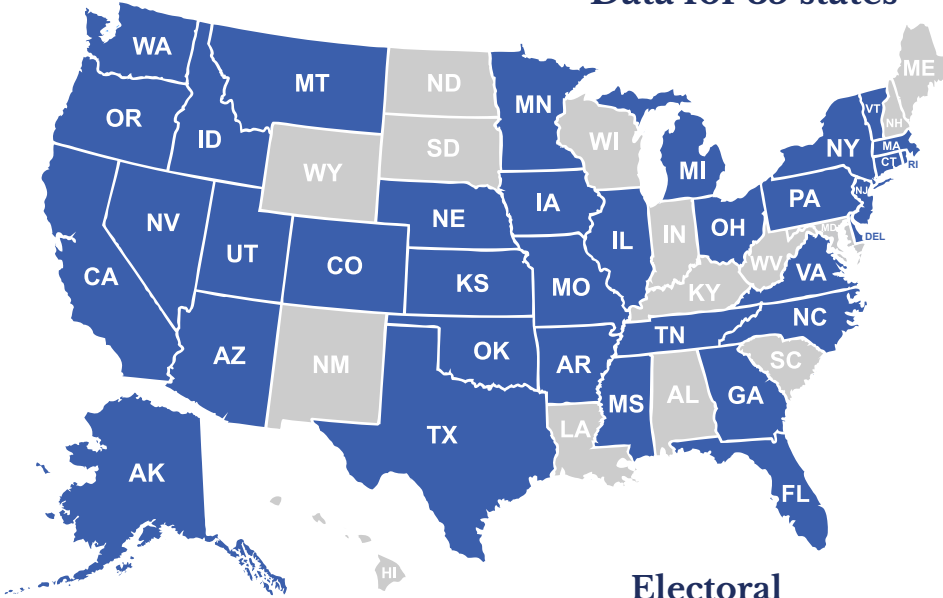

Unite4Freedom is a non-partisan, volunteer, civic organization committed to restoring the fundamental right of every American citizen to legitimate representative government, through legal, valid, and accurate elections. Active in more than 30 states, U4F conducts forensic audits, educational initiatives, and policy advocacy to ensure Real Voters, Real Votes, Real Counts, Real Proof, and Real Security. To the best of our knowledge and belief* all externally acquired data was provided by Unite4Freedom and trusted third party sources*

★ Real Security

1. Ensure all voting systems and machines are critical infrastructure compliant under FISMA.
2. Measure and enforce compliance throughout entire process in real-time, with step-by-step responses prescribed to secure failing control points or suspend the process.

★ Real Voters

3. Verify identity, citizenship, and eligibility of the voters at time of registration.
4. Re-verify registration list within 30 days of voting.
5. If eligibility cannot be verified, voter must vote provisionally.

★ Real Votes

6. System must ensure accessibility without losing provability of voter identity and eligibility.
7. Ballots must have adequate guarantees against forgery, insertion or tampering along the entire path of counting and storing the ballots.
8. Ballots must be received from voters in a way that preserves anonymity but has a guaranteed chain of custody.

★ Real Counts

9. Ensure system securely, accurately, and compliantly receives ballots, counts votes, and maintains all records of votes.
10. If counting a ballot fails, void selections and move to adjudication. All provisional and error ballots must be adjudicated according to law.
11. Implement parallel state/federal misconduct reporting system.
12. Maintain complete transparency to ensure all parties to election are satisfied that election results are legally valid.
13. Upload results for the various jurisdictions.
14. Protect and report results without any chance that results have been altered.

★ Real Proof

15. Conduct randomized end-to-end statistical audits to ensure outcome is within 10% of margin of victory.
16. Investigate and resolve or readminister any elections that cannot be proven accurate and compliant.
