

FOR IMMEDIATE RELEASE

Massive Vote Tampering in California Signals Significant Concern

CONTACT: Media@Unite4Freedom.com

DATE: July 17, 2026

SACRAMENTO, CA — Unite4Freedom (U4F) just released its [California Vote Tampering report](#) for the 2020, 2022 and 2024 elections. U4F's analysis shows that there is good reason to question the accuracy of California's elections.

Voter history information is being changed after certification—this should NEVER happen! Certification is an attestation of accuracy and compliance. Official election records are required by law to be maintained and preserved as auditable records of election results. Once an election has been certified, all voters who were recorded as having voted in the election at the time of certification should NEVER change for any election unless there is specific documentation for why those changes were made. Therefore, modifications to those records are a violation of law!

What type of changes are being made?

In addition to maintaining accurate personal information, such as name, birthdate, address, registration date, etc., in voter registration files, election officials are required to maintain a record of what elections the voter participated in—their voting history. While a voter's name or address may be updated over time, their voting history should NEVER change, unless there is specific documentation for why those changes were made.

U4F Vote Tampering Reports: Evidence that the records have changed.

Unite4Freedom obtained multiple timestamped snapshots of the official California Voter participation records for the 2020, 2022 and 2024 elections. U4F analysts studied two sets of comparisons of those certified voter history records from each election. The findings are highlighted below:

- **2020 General Election**
 - **1,111,963 voter history changes** were made to the official certified records for the 2020 election when comparing the voter history records from Dec 7, 2023 to those from May 21, 2024.
 - **1,014,345 changes** were made when comparing voter history records from May 21, 2024 and September 10, 2024.
 - **Over 2 million edits were made to the 2020 voter history information—YEARS after CA's 2020 election!**
- **2022 General Election**
 - **552,571 total changes** were made to voter history records for the 2022 election using the same voter roll snapshots that were analyzed for the 2020 election above.
- **2024 General Election**
 - **58,799 changes** were made to the 2024 voter history records when comparing December 16, 2024 to December 30, 2024—**Almost 59,000 changes to voters' participation histories made two weeks after the CA 2024 election was certified.**
 - **195,404 changes** to voter history records were made between December 30, 2024 and April 7, 2025.

The question that must be answered by election officials...

- *If election results were accurate when certified, why are voters' participation histories from those elections continuing to change years later?*

Certification is a legal attestation of accuracy, not a rubber stamp.

Certifying without reconciliation violates CA Elections Code §15372–15375. Knowingly submitting false certifications can trigger felonies under 52 U.S.C. §20511 and 18 U.S.C. §1001. The law requires that vote totals be reconciled to verified voters before certification. If the data shows unverified voter rolls or mismatched counts, certification is premature and legally indefensible.

Citizens have a right to demand accuracy in our elections. If elections are not accurate then who is selecting our representatives?

U4F is calling on California election officials to publicly explain:

- Why do California certified voter history records continue to change years after the elections?
- Who authorized those changes, under what authority, and where are the records that demonstrate those changes?
- What controls exist to prevent unauthorized modification of election records?
- How can California citizens have confidence in the result of their elections and independently verify that certified election records are accurate and complete?

Vote Tampering Report

Illegal changes to voter participation histories AFTER election certification

The counts below reflect the number of illegal changes made to individual voter history records after an election was certified. The top data set in each election chart includes illegal changes to vote participation history for voter records that exist in both voter record copies being compared. The second data set in each election chart includes the illegal additions or deletions of entire voter profiles and their associated voting participation histories for that election. Each instance documents modifications made to official federal records after the final certification of the election.

2024 General Election	Changes	12/16/2024 compared to 12/30/2024	12/30/2024 compared to 4/7/2025
Voter exists in ALL voter record copies being compared	Vote to NO vote	196	282
	NO Vote to Vote	3,366	8,771
Voter exists in only ONE copy of voter records being compared	Vote Added	22,640	83,530
	Vote Deleted	32,597	102,821
TOTAL NUMBER OF CHANGES		58,799	195,404

2022 General Election	Changes	12/7/2023 compared to 5/21/2024	5/21/2024 compared to 9/10/2024
Voter exists in ALL voter record copies being compared	Vote to NO vote	890	43,034
	NO Vote to Vote	35,514	1,992
Voter exists in only ONE copy of voter records being compared	Vote Added	89,669	20,141
	Vote Deleted	275,339	47,124
TOTAL NUMBER OF CHANGES		422,309	130,262

2020 General Election	Changes	12/7/2023 compared to 5/21/2024	5/21/2024 compared to 9/10/2024
Voter exists in ALL voter record copies being compared	Vote to NO vote	1,309	20,141
	NO Vote to Vote	24,700	3,283
Voter exists in only ONE copy of voter records being compared	Vote Added	127,259	885,302
	Vote Deleted	920,139	78,047
TOTAL NUMBER OF CHANGES		1,111,963	1,014,345

California 2024 General Election Validity Scorecard

★ 1. Were the voter rolls accurate, as required by the National Voter Registration Act of 1993?

Registrations with material errors and omissions as per the Civil Rights Acts of 1964	Number of Instances*	32.6% REGISTRATION ERROR RATE
Illegal duplicate registrations	114,139	
Registrant with multiple votes in same election	140,471	
Voted prior to "New Registration" date	3,074,762	
Questionable inactive status	21,675	
Voted while inactive	87,518	
Backdated registrations	3,817,658	
Registered on January 1st	147,929	
Invalid or illogical registration date	1,610,766	
Illegal or invalid registration changes	234,433	
Age discrepant registrants	12,336	
Registrants with questionable address	274,727	
ID with no identity (4230 Vote Records)	3,160	
TOTAL REGISTRATION VIOLATIONS PROHIBITED BY LAW:		9,539,574
UNIQUE REGISTRATIONS PROHIBITED BY LAW:		8,389,091

★ 2. Were the votes counted from eligible voters, as required by the US Constitution?

Registrations with material errors and omissions whose votes were counted	Number of Instances*	34.6% VOTE ERROR RATE
Illegal duplicate registrations	66,460	
Registrant with multiple votes in '22 GE	104,859	
Voted prior to "New Registration" date	2,440,507	
Questionable inactive status	17,086	
Voted while inactive	204	
Backdated registrations	2,341,572	
Registered on January 1st	60,777	
Invalid or illogical registration date	1,023,443	
Illegal or invalid registration changes	234,501	
Age discrepant registrants	3,125	
Registrants with questionable address	99,900	
ID with no identity	205	
TOTAL VOTING VIOLATIONS PROHIBITED BY LAW:		6,392,639
UNIQUE VOTES PROHIBITED BY LAW:		5,588,594

★ 3. Was the number of votes counted equal to the number of voters who voted?

Official Source	Reported Total by Official Source	
State Official Results (Official Canvass)—Votes counted	16,140,044	
State VoteCal Database (number of voters)—Voters who voted	16,062,959	
DIFFERENCE (MORE votes counted than voters who voted):		77,085

★ 4. Was the number of ballots in error valid according to the Help America Vote Act of 2002?

Total ballots counted in error in the 2024 GE	5,588,594
Allowable machine error rate is 1/10,000,000 ballot positions or 1/125,000 ballots	130
Total excess ballots counted in error: Provable accuracy fails to meet any protective legal standard	5,588,464

★ TOTAL ELECTION ERRORS (Sections 2+3) 5,665,679 35.1% TOTAL ELECTION ERROR RATE

California's 2022 General Election Validity Scorecard

1. Were the voter rolls accurate, as required by the National Voter Registration Act of 1993?

Ineligible or Uncertain Registration Type	Number of Instances*
Illegal duplicate registrations	191,746
Registrant with multiple votes in same election	109,286
Voted prior to "New Registration" date	3,174,987
Questionable inactive status	180,848
Voted while inactive	94,421
Backdated registrations	1,938,367
Registered on January 1st	180,804
Invalid or illogical registration date	1,528,690
Illegal or invalid registration changes	156,099
Age discrepant registrants	16,584
Registrants with questionable address	302,457
ID with no identity (4230 Vote Records)	423
TOTAL APPARENT REGISTRATION VIOLATIONS:	7,874,712

2. Were the votes counted from eligible voters, as required by the US Constitution?

Ineligible or Uncertain Registration Type that Voted in 2022 GE	Votes cast in 2022 GE
Illegal duplicate registrations	95,965
Registrant with multiple votes in '22 GE	42,611
Voted prior to "New Registration" date	1,857,714
Questionable inactive status	170,308
Voted while inactive	50
Backdated registrations	17,020
Registered on January 1st	56,324
Invalid or illogical registration date	663,347
Illegal or invalid registration changes	156,141
Age discrepant registrants	5,666
Registrants with questionable address	73,827
ID with no identity	230
TOTAL APPARENT VOTING VIOLATIONS:	3,139,203
UNIQUE VOTES IMPACTED BY APPARENT VOTING VIOLATIONS:	2,866,088

3. Was the number of votes counted equal to the number of voters who voted?

Official Source	Reported Total by Official Source
State Official Results (Official Canvass)—Votes counted	11,146,620
State VoteCal Database (number of voters)—Voters who voted	10,983,878
DIFFERENCE (more votes counted than voters who voted):	162,742

4. Was the number of ballots in error valid according to the Help America Vote Act of 2002?

Apparent voting violations in the 2022 GE	2,866,088
Allowable machine error rate is 1/10,000,000 ballot positions or 1/125,000 ballots	90
Unresolved vote errors: Provable accuracy fails to meet any protective legal standard	2,865,998

"Congress seeks. . . to guard the election of members of Congress against any possible unfairness by compelling, under its pains and penalties, everyone concerned in holding the election to a strict and scrupulous observance of every duty devolved upon him while so engaged. . . . The evil intent consists in disobedience to the law." —In re Coy, 127 U.S. 731 (1888)
